Course Code : CSA1522-Cloud Computing and Big Data Analytics

EXP- NO1: Flight Reservation System

Aim:

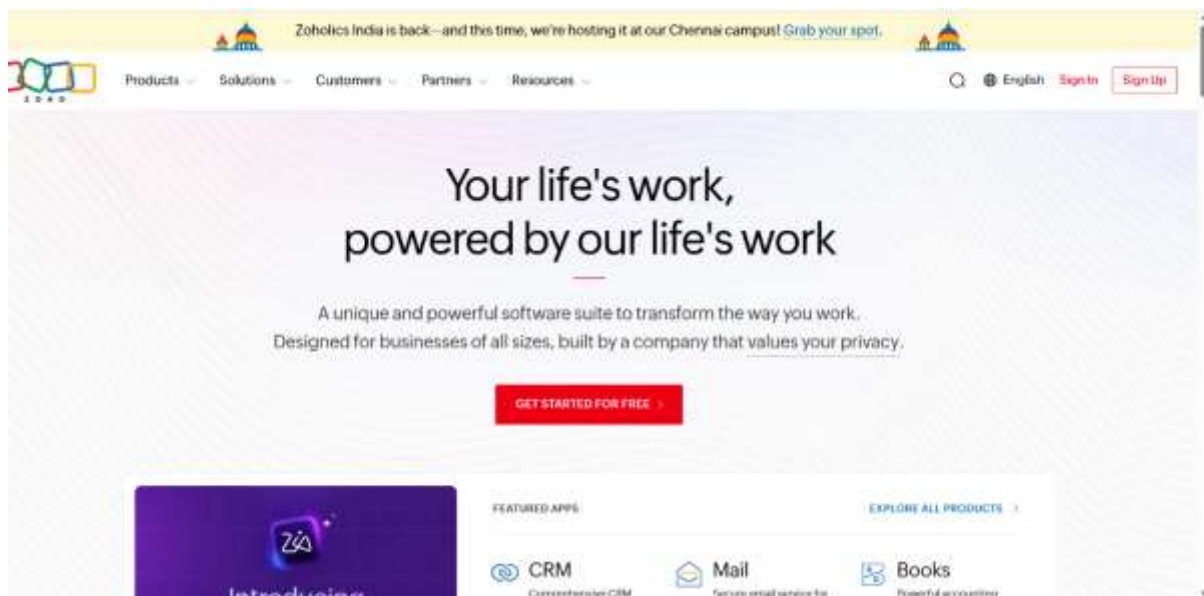

To develop a cloud-based Flight Reservation System using Zoho Creator to demonstrate SaaS.

Steps:

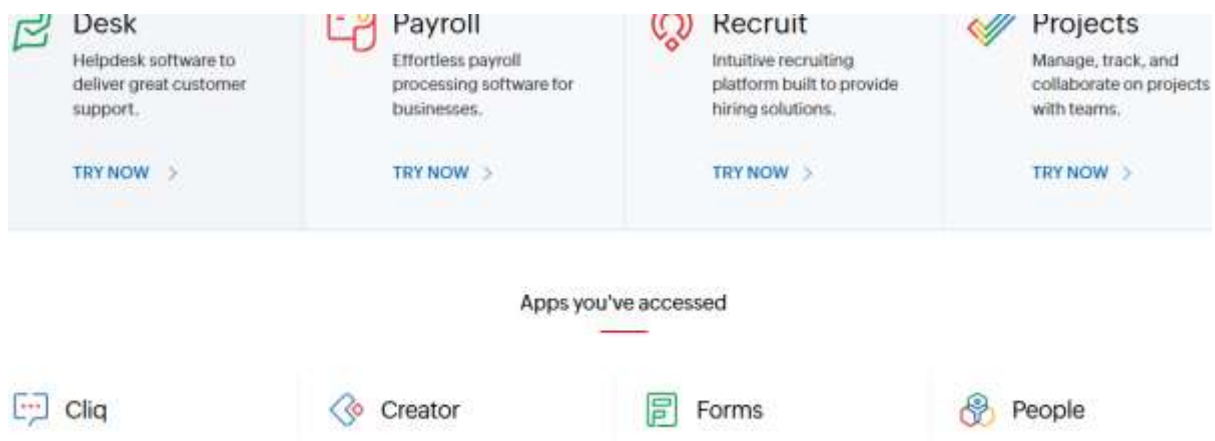

1. Log in to Zoho Creator and click Create New Application.
2. Create a Flight Reservation form.
3. Add fields: From, To, Departure Date, Return Date, Travelers, Class, Fare Type, Flight Type, and Passenger Name.
4. Save the form and create a report to display reservation records.
5. Enter sample data, verify the records, and publish the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Flight Reservation System as the application name and click Create Application.

Step 7: The Software has Been Created

EXP NO- 2: Property Buying & Rental System

Aim:

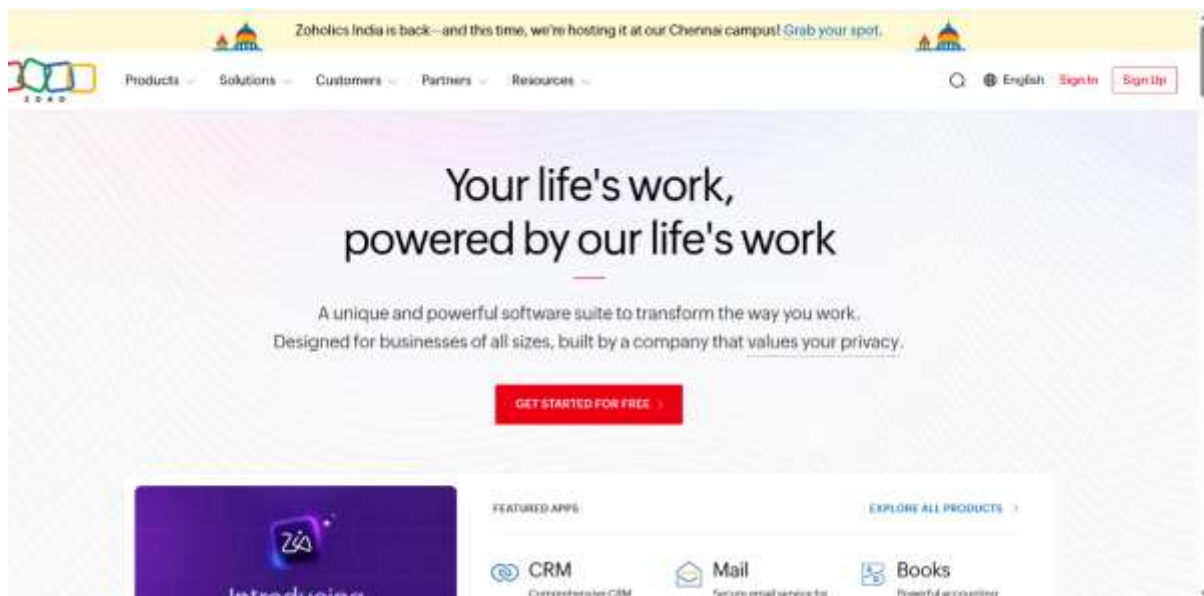

To create a cloud-based Property Buying & Rental System using Zoho Creator.

Steps:

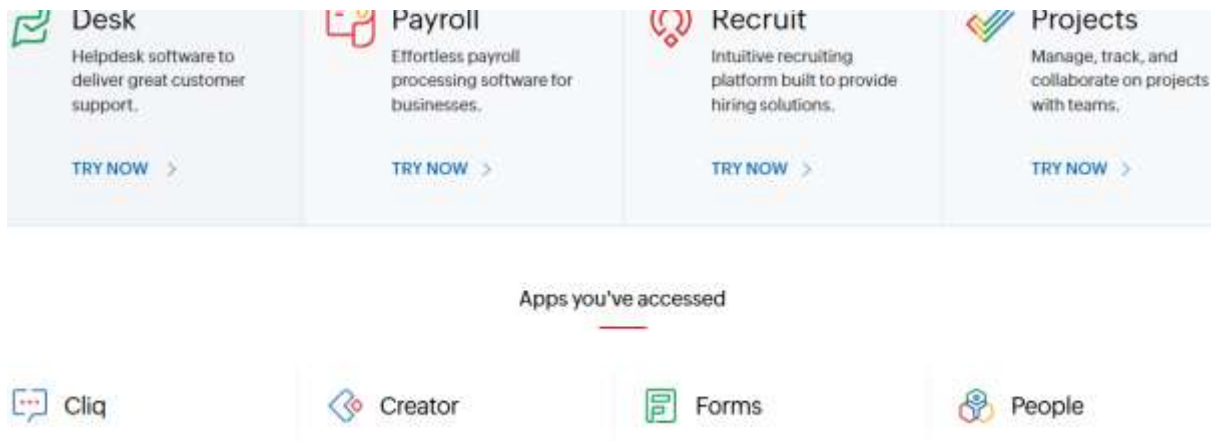

1. Create a new application in Zoho Creator.
2. Create a Property Details form.
3. Add fields: Buy/Rent, Property Type, Area, Location, Price, Rental Agreement, and Owner Details.
4. Create reports to view and search property records.
5. Test the application by entering sample property details.

Implemented

Step 1: Go to zoho.com

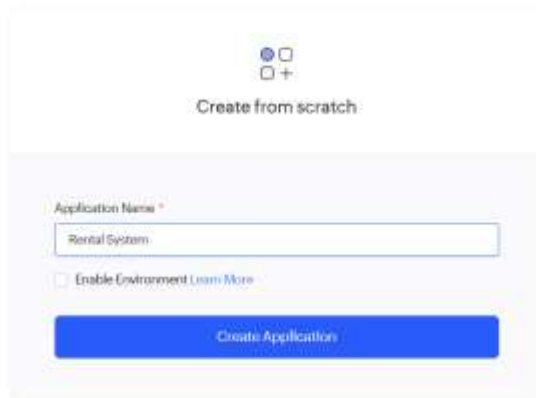

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

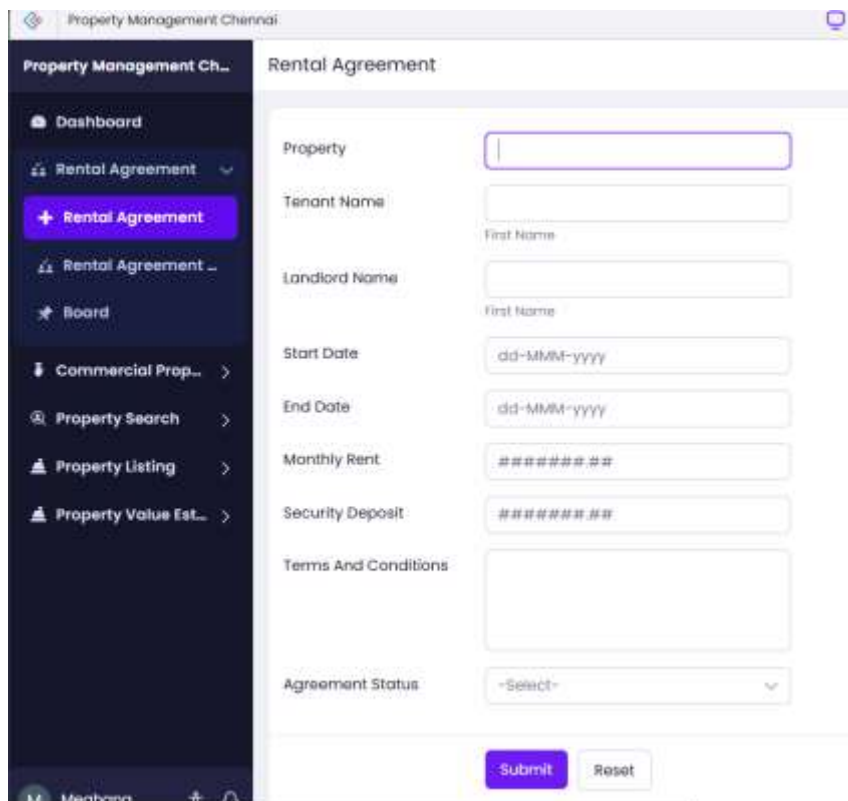

STEP 4: Enter Rental System as the application name and click Create Application.

The screenshot shows a 'Create from scratch' form. At the top, there are icons for a circle with a dot, a square with a dot, and a square with a plus sign. Below these is the text 'Create from scratch'. The form has a section for 'Application Name' with a text input field containing 'Rental System'. Below this is a checkbox labeled 'Enable Environment' with a link 'Learn More'. At the bottom is a blue button labeled 'Create Application'.

Step 5: Add fields: Buy/Rent, Property Type, Area, Location, Price, Rental Agreement, and Owner Details.

The screenshot shows the 'Rental Agreement' form in the 'Property Management Chennai' application. The left sidebar contains a menu with 'Dashboard', 'Rental Agreement' (selected), 'Rental Agreement ...', 'Board', 'Commercial Prop...', 'Property Search', 'Property Listing', and 'Property Value Est...'. The main form has the following fields: 'Property' (text input), 'Tenant Name' (text input with 'First Name' label), 'Landlord Name' (text input with 'First Name' label), 'Start Date' (date input with 'dd-MM-yyyy' placeholder), 'End Date' (date input with 'dd-MM-yyyy' placeholder), 'Monthly Rent' (text input with '#####' placeholder), 'Security Deposit' (text input with '#####' placeholder), 'Terms And Conditions' (text area), and 'Agreement Status' (dropdown menu with '-Select-' option). At the bottom are 'Submit' and 'Reset' buttons. The bottom status bar shows 'Meahana' and some icons.

EXP NO 4: Library Book Reservation System

Aim:

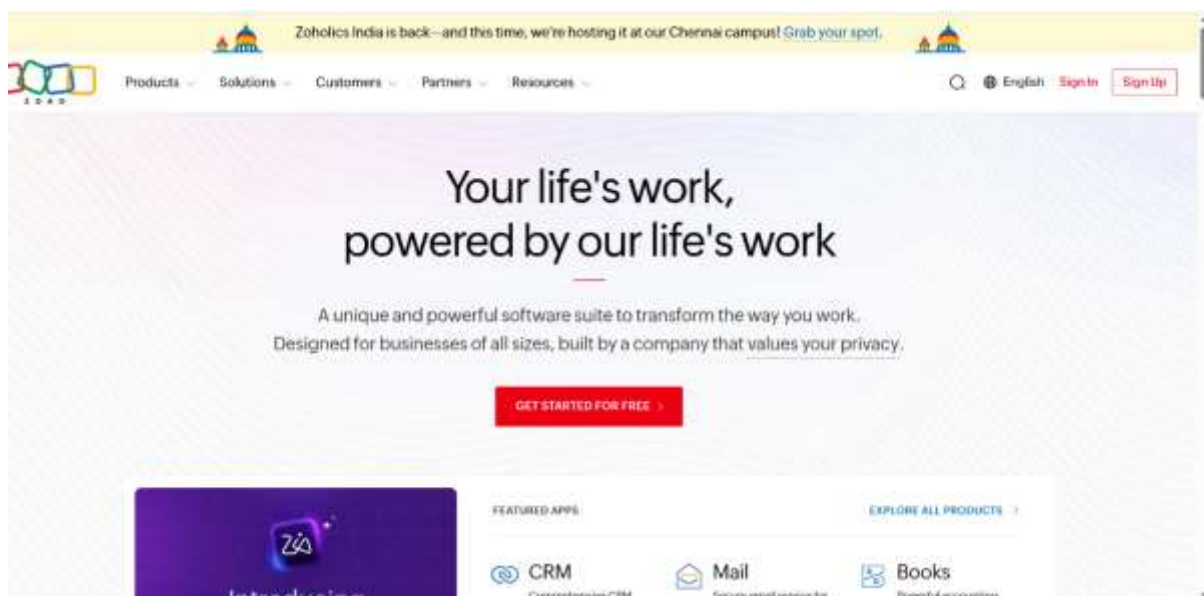

To create a cloud-based Library Book Reservation System using Zoho Creator.

Steps:

1. Create a new application.
2. Create a Book Reservation form.
3. Add fields: Book Title, Author, Publication, Edition, Rack Number, Number of Copies, and Status.
4. Create a report to display available and reserved books.
5. Test the application with sample book records.

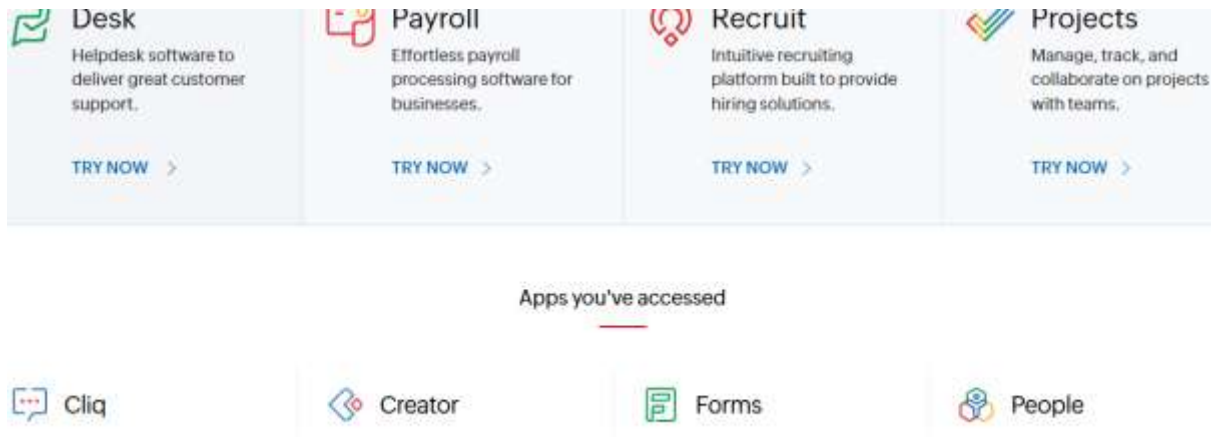

Implemented

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

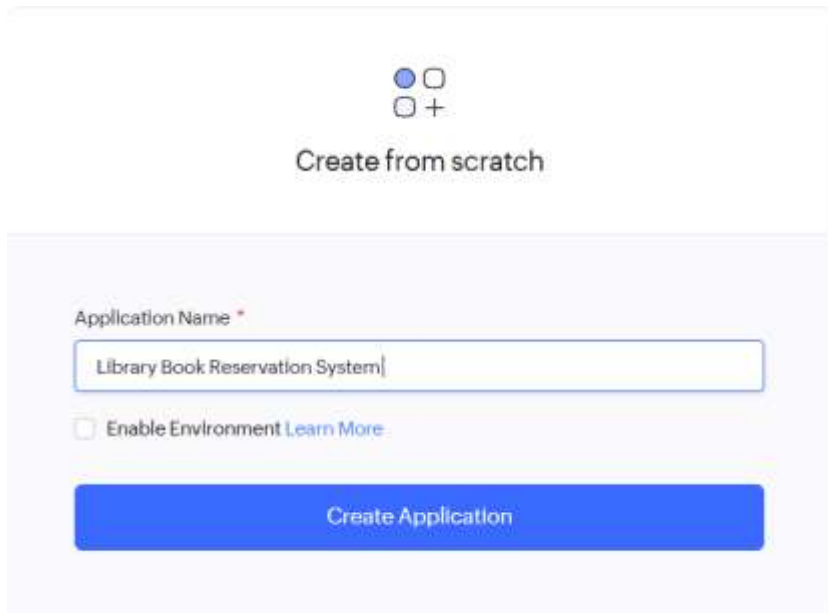

c

STEP 3: Click Create New Application and select Create from Scratch

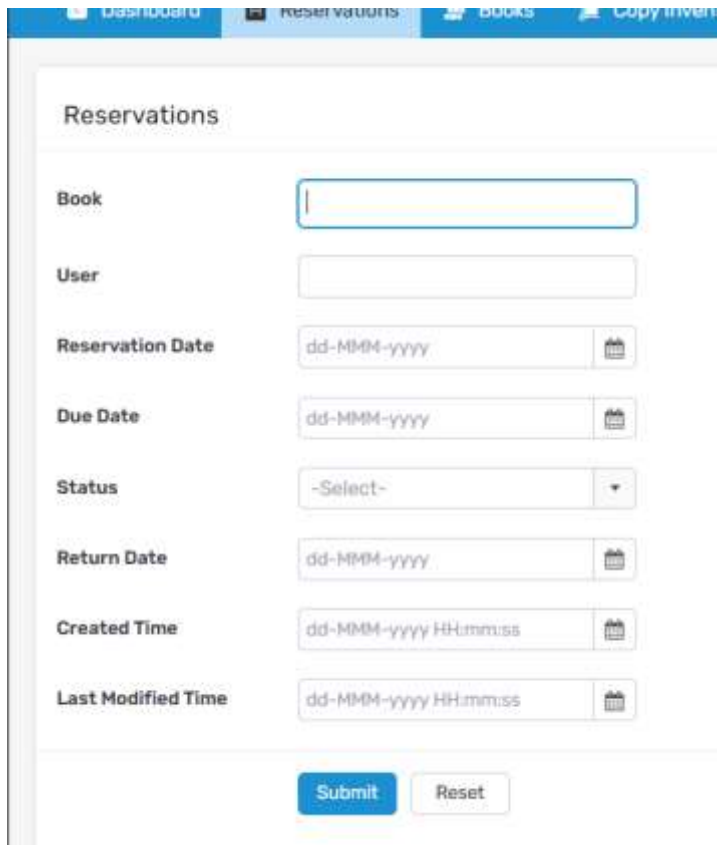

STEP 4: Enter Library Book Reservation System as the application name and click Create Application.

The screenshot shows a web interface for creating a new application. At the top, there are icons for different creation methods: a blue circle with a square, a square with a plus, and a square with a plus. Below these icons is the text "Create from scratch". The main form area has a label "Application Name *" followed by a text input field containing "Library Book Reservation System". Below the input field is a checkbox labeled "Enable Environment" with a link "Learn More" next to it. At the bottom of the form is a large blue button labeled "Create Application".

Step 5: Add fields: Book Title, Author, Publication, Edition, Rack Number, Number of Copies, and Status

The screenshot shows a web application interface with a top navigation bar containing "Dashboard", "Reservations", "Books", and "Copy Inventory". The "Reservations" section is active. Below the navigation bar is a form titled "Reservations". The form contains several fields: "Book" (text input), "User" (text input), "Reservation Date" (date picker with format dd-MMM-yyyy), "Due Date" (date picker with format dd-MMM-yyyy), "Status" (dropdown menu with "-Select-" selected), "Return Date" (date picker with format dd-MMM-yyyy), "Created Time" (datetime picker with format dd-MMM-yyyy HH:mm:ss), and "Last Modified Time" (datetime picker with format dd-MMM-yyyy HH:mm:ss). At the bottom of the form are two buttons: "Submit" (blue) and "Reset" (white with blue border).

EXP NO - 5: Mark Sheet Processing System

Aim:

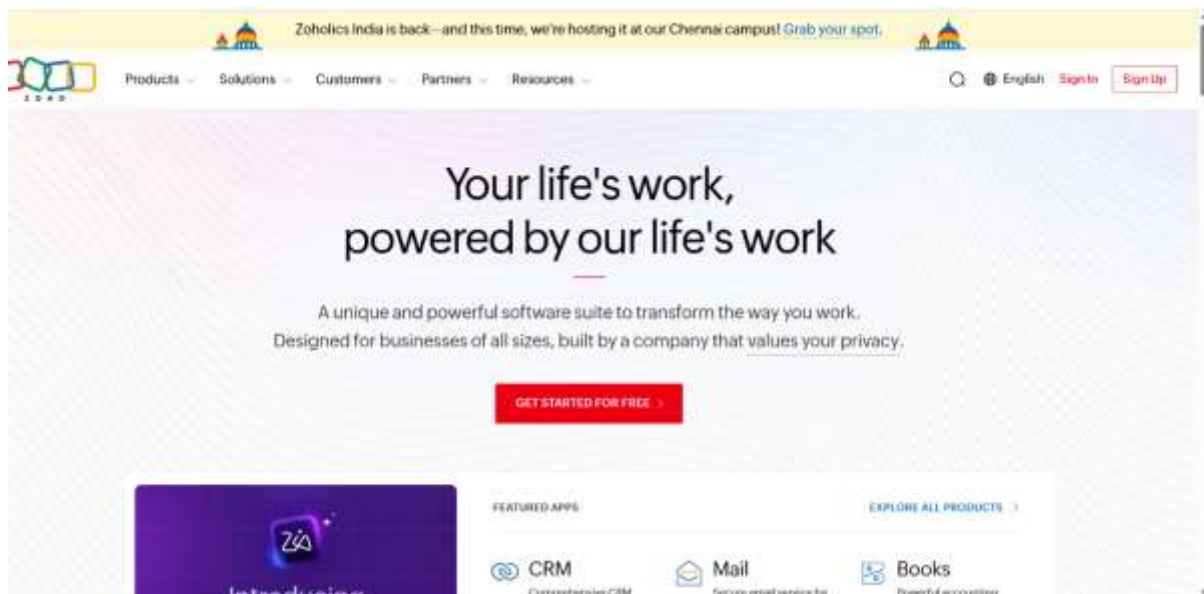

To develop a cloud-based Mark Sheet Processing System using Zoho Creator.

Steps:

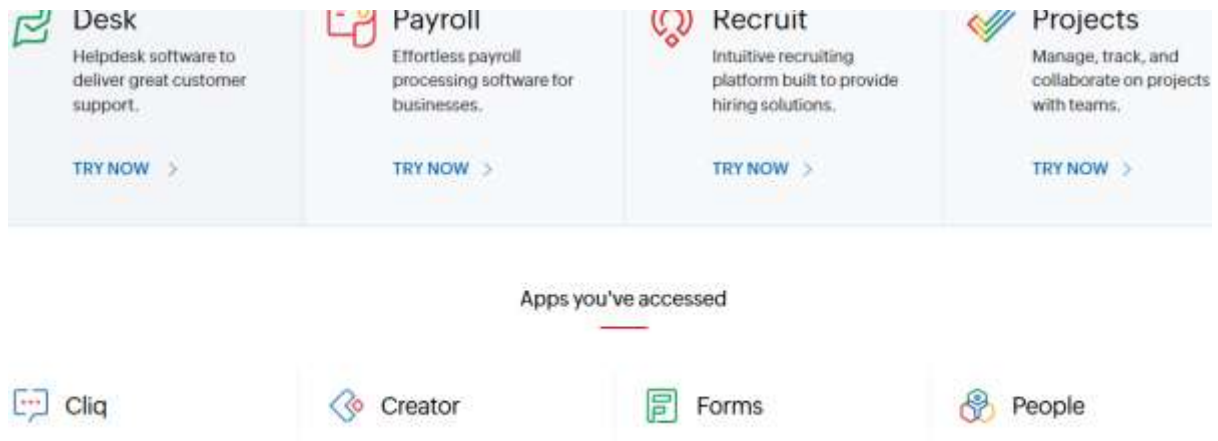

1. Create a new application.
2. Create a Student Mark Sheet form.
3. Add fields: Student Name, Register Number, Subject Marks, Total, Average, Percentage, and Rank.
4. Use formulas to calculate Total, Average, and Percentage.
5. Save the records and verify the generated mark sheet.

Implemented

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

Step 5:Add fields: Student Name, Register Number, Subject Marks, Total, Average, Percentage, and Rank.

The screenshot shows the 'Mark Entry' form within the 'Mark Sheet Processing System'. The left sidebar contains a menu with options: Dashboard, Mark Entry, Mark Entry Report, Board, Performance Sum..., Student, and Subject. The 'Mark Entry' option is highlighted. The main form area is titled 'Mark Entry' and contains the following fields: Student (text input), Subject (dropdown menu), Exam Type (dropdown menu), Obtained Marks (text input with a mask of 8 asterisks), Date Recorded (text input with a date mask of dd-MM-yyyy), Grade (dropdown menu), and Remarks (text area). At the bottom of the form are two buttons: 'Submit' (orange) and 'Reset' (grey).

The screenshot shows the 'Performance Summary' form within the 'Mark Sheet Processing System'. The left sidebar contains a menu with options: Dashboard, Mark Entry, Performance Sum..., Performance Sum..., Board, Student, and Subject. The 'Performance Sum...' option is highlighted. The main form area is titled 'Performance Summary' and contains the following fields: Student (text input), Academic Year (text input), Total Marks (text input with a mask of 8 asterisks), Average Marks (text input with a mask of 8 asterisks), Percentage (text input), Rank (text input with a mask of 8 asterisks), Overall Performance (dropdown menu), and Status (dropdown menu). At the bottom of the form are two buttons: 'Submit' (orange) and 'Reset' (grey).

STEP 6: Save the form, enter sample booking records, and view them in the Mark Sheet Processing System.

Step 7:The Software has Been Created:

EXP NO 6: Payroll Processing System

Aim:

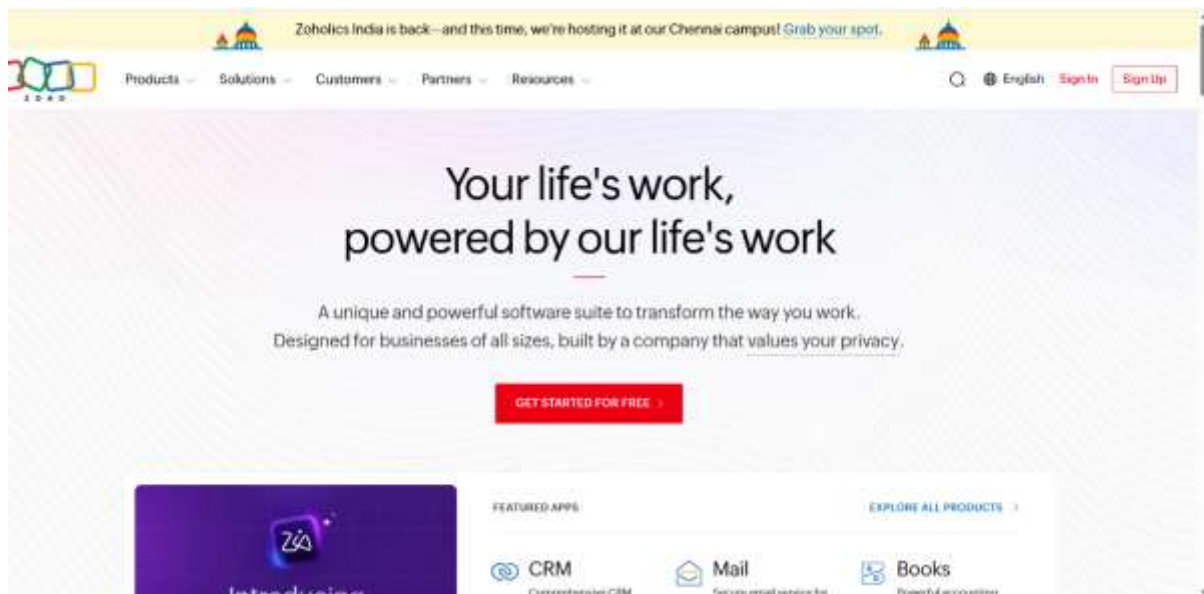

To create a cloud-based Payroll Processing System using Zoho Creator.

Steps:

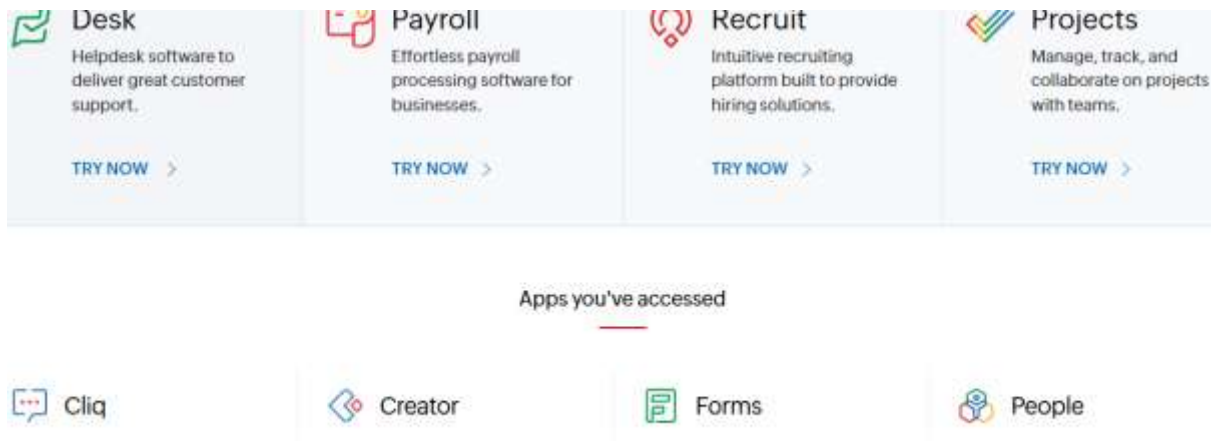

1. Create a new application.
2. Create an Employee Payroll form.
3. Add fields: Employee Name, Experience, Basic Pay, HRA, DA, TA, Gross Pay, and Net Pay.
4. Use formulas to calculate Gross Pay and Net Pay.
5. Save employee details and verify the payroll report.

Implemented:

Step 1: Go to zoho.com

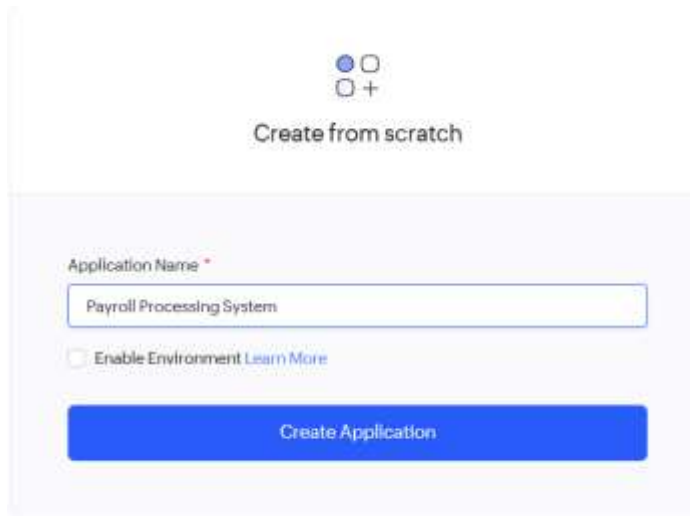

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

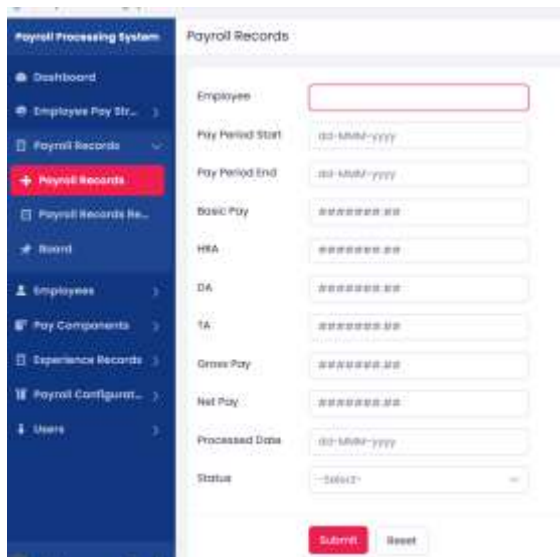

STEP 4: Enter Payroll Processing System as the application name and click Create Application.

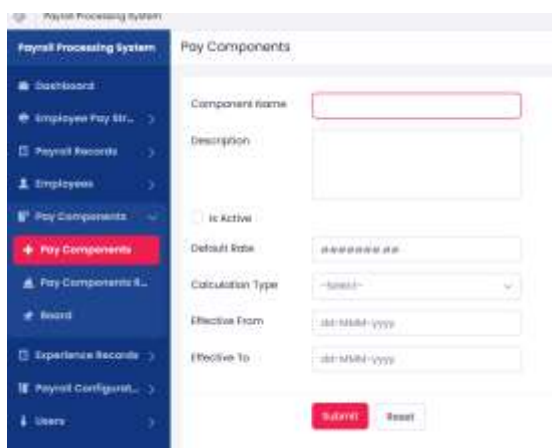

The screenshot shows a 'Create from scratch' form. At the top, there are two icons: a blue circle with a white dot inside, and a white circle with a plus sign inside. Below these icons is the text 'Create from scratch'. The form has a light purple background. It contains a text input field labeled 'Application Name' with a red asterisk, containing the text 'Payroll Processing System'. Below this is a checkbox labeled 'Enable Environment' with a link 'Learn More'. At the bottom is a large blue button labeled 'Create Application'.

Step 5:Add fields: Student Name, Register Number, Subject Marks, Total, Average, Percentage, and Rank.

The screenshot shows the 'Payroll Records' form. On the left is a dark blue sidebar with a menu. The menu items are: 'Dashboard', 'Employee Pay Str...', 'Payroll Records', 'Payroll Records He...', 'Board', 'Employees', 'Pay Components', 'Experience Records', 'Payroll Configur...', and 'Users'. The 'Payroll Records' item is highlighted with a red background and a white plus icon. The main form area has a light purple header with the title 'Payroll Records'. It contains several input fields: 'Employee' (text), 'Pay Period Start' (date), 'Pay Period End' (date), 'Basic Pay' (text), 'HRA' (text), 'DA' (text), 'TA' (text), 'Gross Pay' (text), 'Net Pay' (text), 'Processed Date' (date), and 'Status' (dropdown). At the bottom are two buttons: 'Submit' (red) and 'Reset' (grey).

The screenshot shows the 'Pay Components' form. On the left is a dark blue sidebar with a menu. The menu items are: 'Dashboard', 'Employee Pay Str...', 'Payroll Records', 'Employees', 'Pay Components', 'Pay Components &...', 'Board', 'Experience Records', 'Payroll Configur...', and 'Users'. The 'Pay Components' item is highlighted with a red background and a white plus icon. The main form area has a light purple header with the title 'Pay Components'. It contains several input fields: 'Component Name' (text), 'Description' (text), 'Is Active' (checkbox), 'Default Rate' (text), 'Calculation Type' (dropdown), 'Effective From' (date), and 'Effective To' (date). At the bottom are two buttons: 'Submit' (red) and 'Reset' (grey).

STEP 6: Save the form Payroll Processing, enter sample booking records, and view them in the System.

The screenshot displays two reports from the Payroll Processing System. The top report is the 'Payroll Records Report' and the bottom is the 'Pay Components Report'.

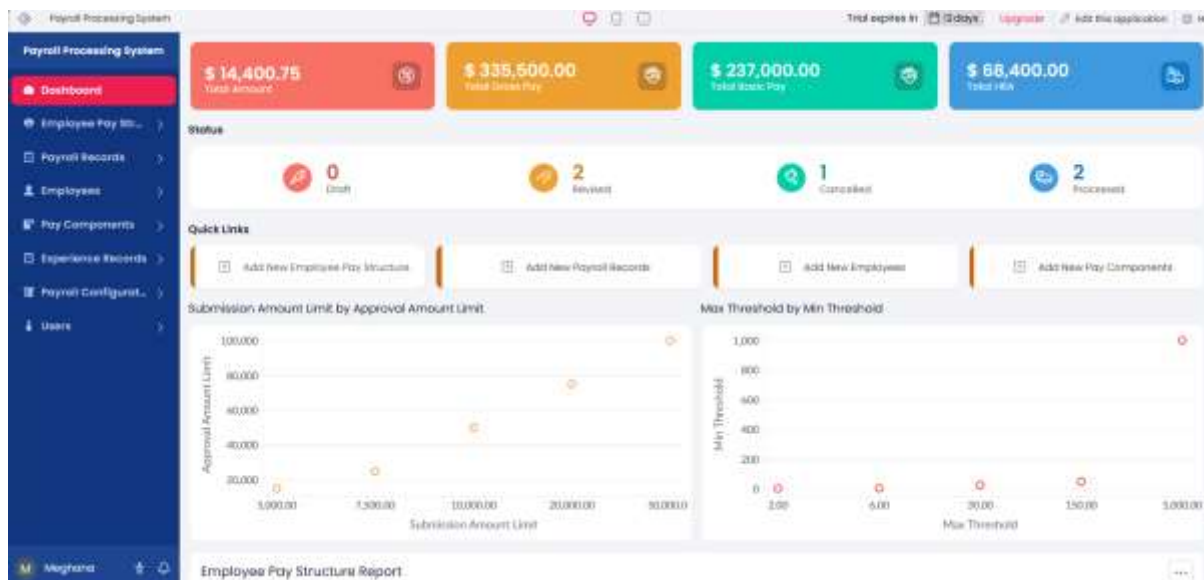

Payroll Records Report

Step 7: The Software has Been Created

EXP NO - 7: Student Attendance System

Aim:

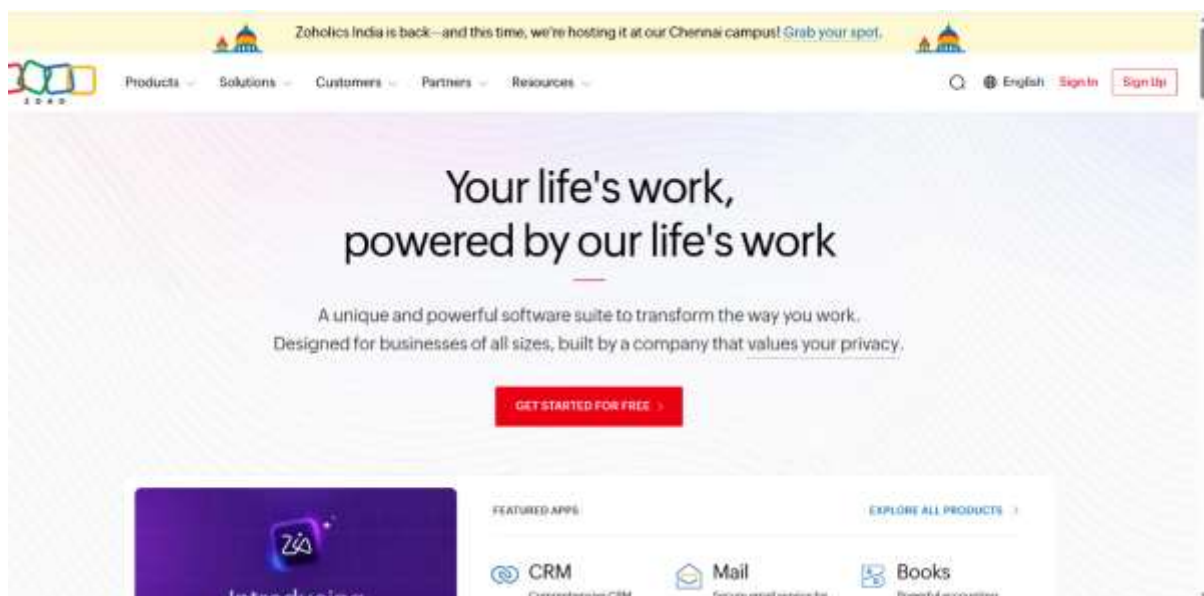

To develop a cloud-based Student Attendance System using Zoho Creator.

Steps:

1. Create a new application.
2. Create a Student Attendance form.
3. Add fields: Student Name, Course, Date, Present/Absent, Attendance Percentage, and OD Request.
4. Create reports to display attendance records.
5. Test the application by entering attendance details.

Implemented:

Step 1: Go to zoho.com

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Student Attendance System as the application name and click Create Application.

The screenshot shows the 'Create from scratch' form. At the top, there's a header 'Create from scratch'. Below it, there's a form with the following fields and buttons:

- Application Name ***: A text input field containing 'Student Attendance System'.
- Enable Environment**: A checkbox with a link 'Learn More'.
- Create Application**: A large blue button.

Step 5: Add fields: Student Name, Course, Date, Present/Absent, Attendance Percentage, and OD Request.

The screenshot shows the 'Attendance Records' form. On the left is a dark sidebar menu with options: Dashboard, Attendance Records (selected), Attendance Record..., Board, OD Requests, Students, and Courses. The main form area has the title 'Attendance Records' and contains the following fields: Student (text input), Course (dropdown menu), Date (date picker), Status (dropdown menu), and Remarks (text area). At the bottom are 'Submit' and 'Reset' buttons.

The screenshot shows the 'OD Requests' form. The sidebar menu is the same as in the previous screenshot, with 'OD Requests' selected. The main form area has the title 'OD Requests' and contains the following fields: Student (text input), Course (dropdown menu), Request Date (date picker), Start Date (date picker), End Date (date picker), Reason (text area), Status (dropdown menu), and Submitted By (text input). At the bottom are 'Submit' and 'Reset' buttons.

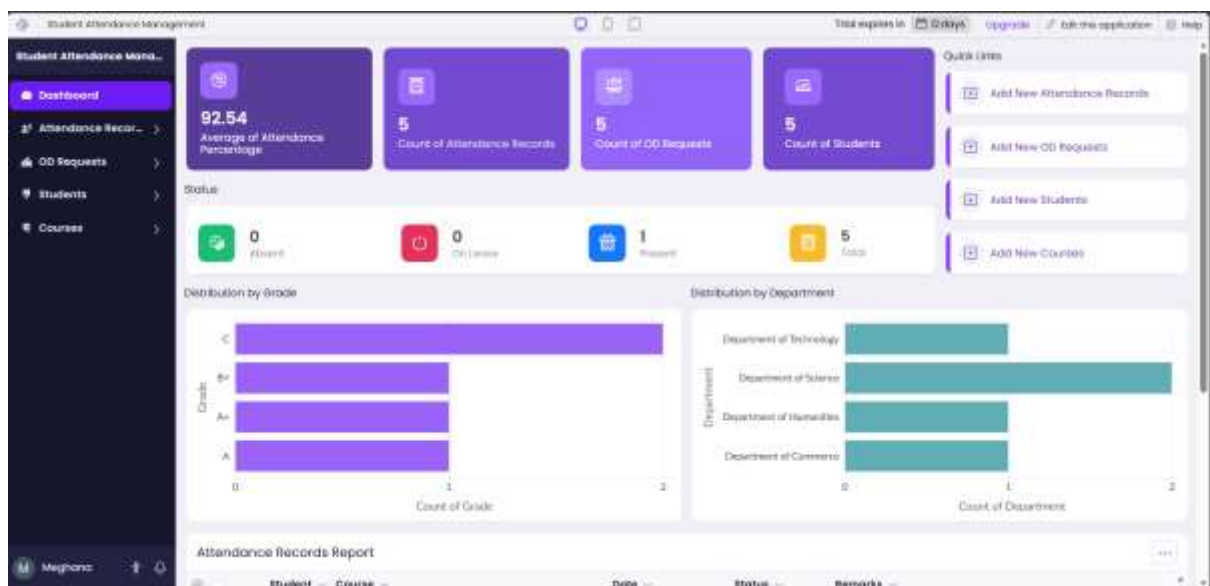

STEP 6: Save the form Student Attendance System, enter sample booking records, and view them in the System.

The screenshot shows the 'Attendance Records Report' table. The sidebar menu has 'Attendance Records Report' selected. The table has columns: Student, Course, Date, Status, and Remarks. The data is as follows:

Step 7:The Software has Been Created

EXP NO -8: Student Counselling System

Aim:

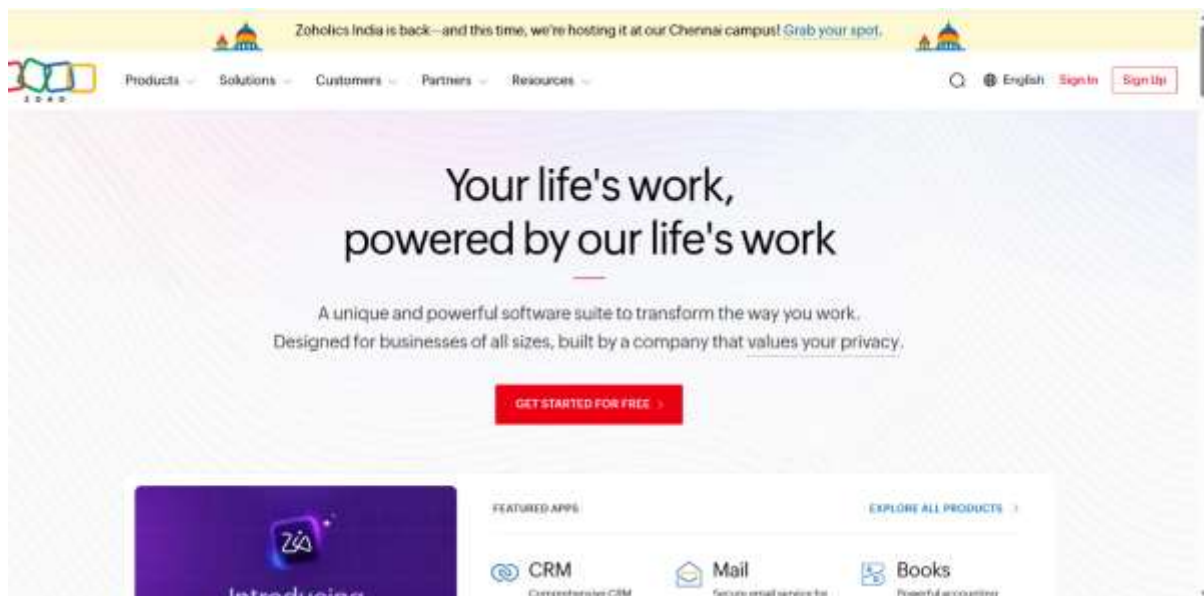

To create a cloud-based Student Counselling System using Zoho Creator.

Steps:

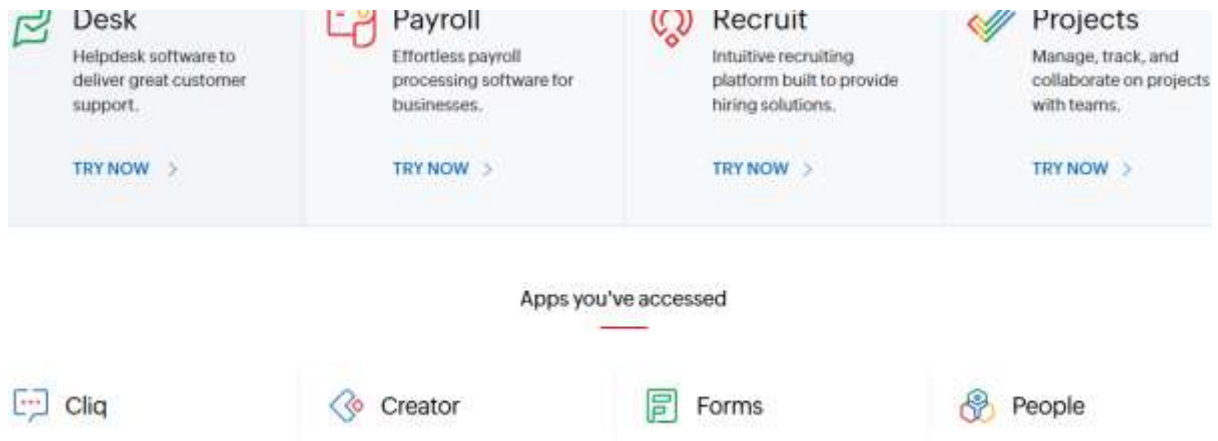

1. Create a new application.
2. Create a Student Counselling form.
3. Add fields: Student Name, Age, Address, Phone Number, Percentage, Year of Passing, and Domain Interest.
4. Create reports to view counselling information.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

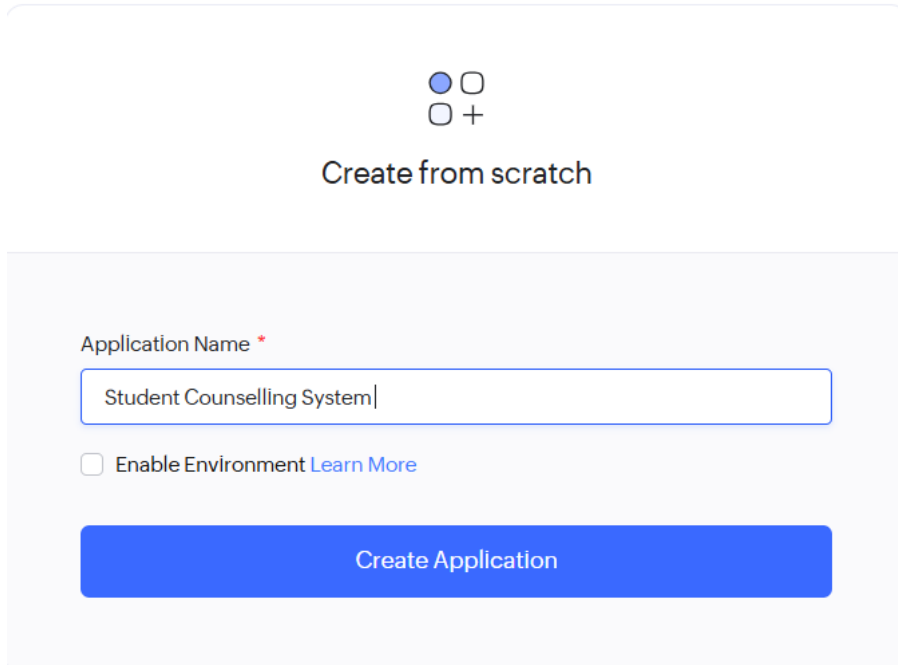

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

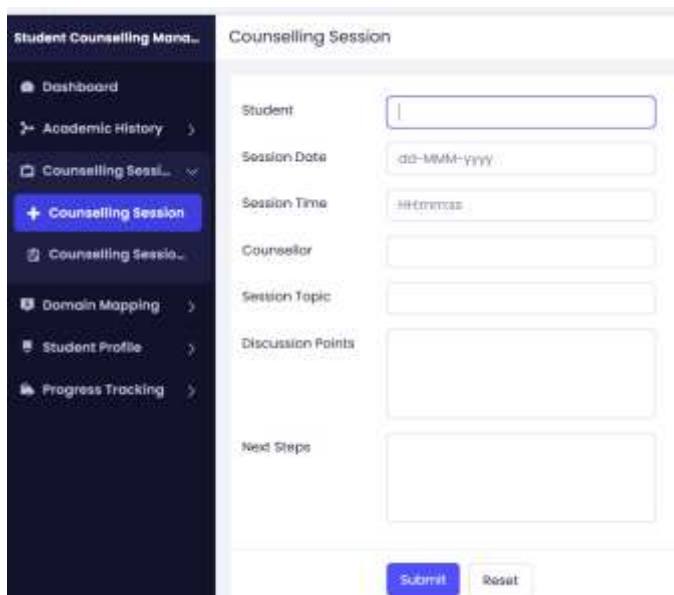

STEP 4: Enter Student Counselling System as the application name and click Create Application.

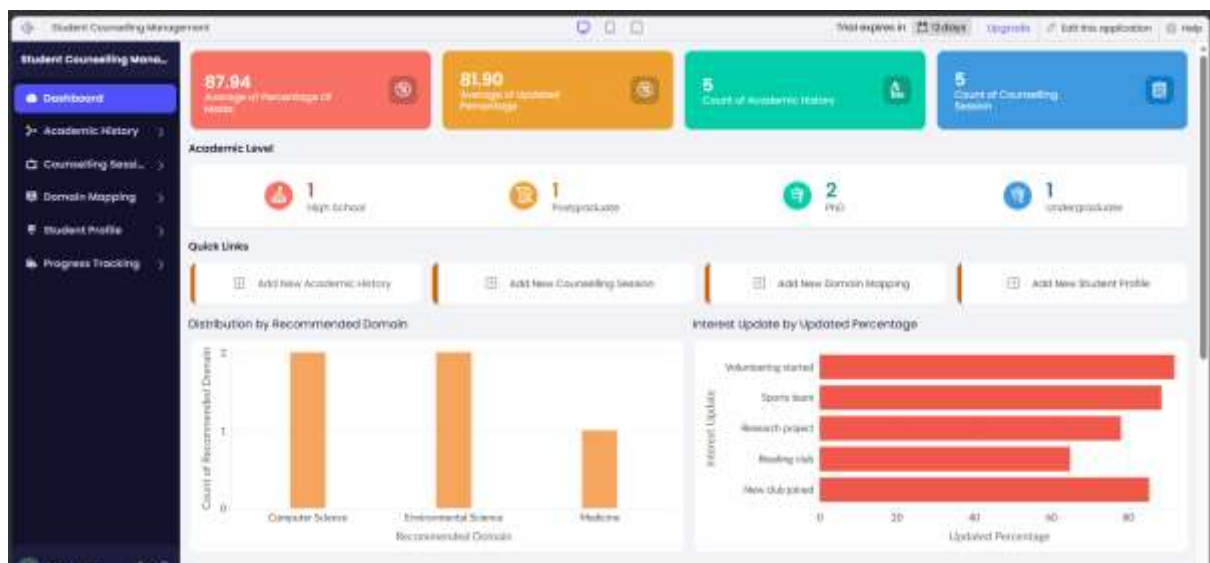

The screenshot shows a 'Create from scratch' form. At the top, there are two rows of icons: a blue circle and an empty circle, and an empty circle and a plus sign. Below these icons is the text 'Create from scratch'. The form itself is a light gray box containing a label 'Application Name *' above a text input field with the value 'Student Counselling System'. Below the input field is a checkbox labeled 'Enable Environment' followed by a blue link 'Learn More'. At the bottom of the form is a large blue button with the text 'Create Application'.

Step 5: Add fields: Student Name, Age, Address, Phone Number, Percentage, Year of Passing, and Domain Interest.

The screenshot shows the 'Counselling Session' form. On the left is a dark sidebar with the title 'Student Counselling Mana...' and a list of menu items: 'Dashboard', 'Academic History', 'Counselling Sessi...', '+ Counselling Session' (highlighted in blue), 'Counselling Sessio...', 'Domain Mapping', 'Student Profile', and 'Progress Tracking'. The main content area is titled 'Counselling Session' and contains several input fields: 'Student' (text), 'Session Date' (date picker showing 'dd-MM-yyyy'), 'Session Time' (time picker showing 'HH:mm:ss'), 'Counsellor' (text), 'Session Topic' (text), 'Discussion Points' (text area), and 'Next Steps' (text area). At the bottom right are two buttons: 'Submit' (blue) and 'Reset' (gray).

Step 7: The Software has Been Created

EXP NO - 9: Hospital Information System

Aim:

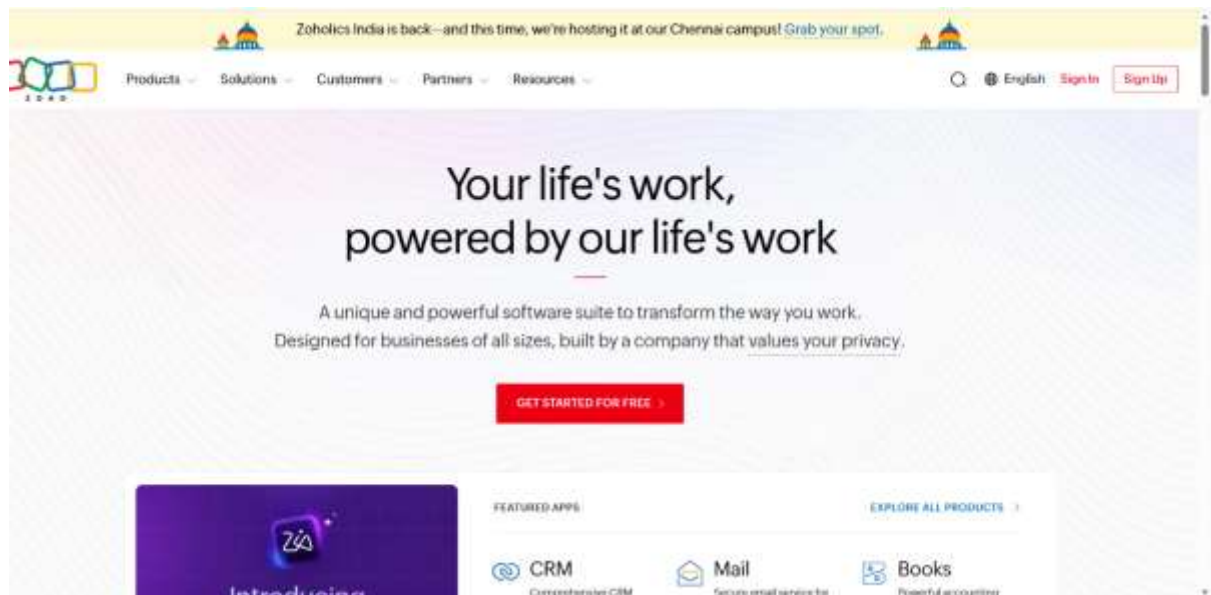

To create a cloud-based Hospital Information System using Zoho Creator.

Steps:

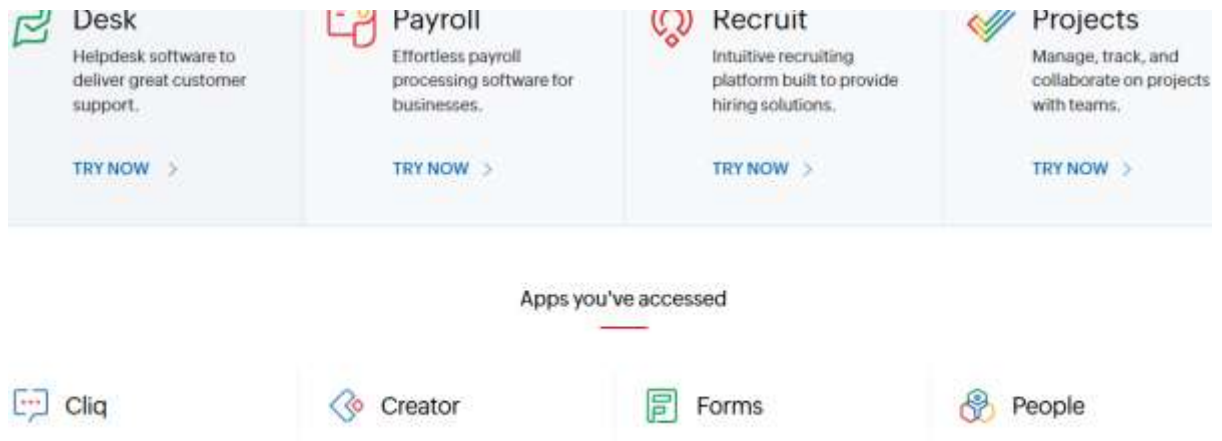

1. Create a new application.
2. Create a **Hospital Information** form.
3. Add fields: Patient Name, Age, Address, Phone Number, Email, Attender Name, Attender Phone, Doctor Name, and Disease.
4. Create reports to view patient information.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

STEP 4: Enter Hospital Information System as the application name and click Create Application.

STEP 6: Save the form Hospital Information Management, enter sample booking records, and view them in the System.

The screenshot displays two reports from the Hospital Information Management system. The first report, 'Disease Tracking Report', shows a table of patient data with columns for Disease Name, Patient, Diagnosis Date, and Treatment Status. The second report, 'Medical Data Storage Report', shows a table of medical data with columns for Patient, Data Type, Data Content, Upload Date, and Version.

Disease Name	Patient	Diagnosis Date	Treatment Status
Stomach Ache	1	30-Jul-2028	Chronic
	2		
	3		
Headache	1	28-Jul-2028	Chronic
Fever	1	25-Jul-2028	Active

Step 7: The Software has Been Created

EXP NO - 10: Student Information Management

Aim:

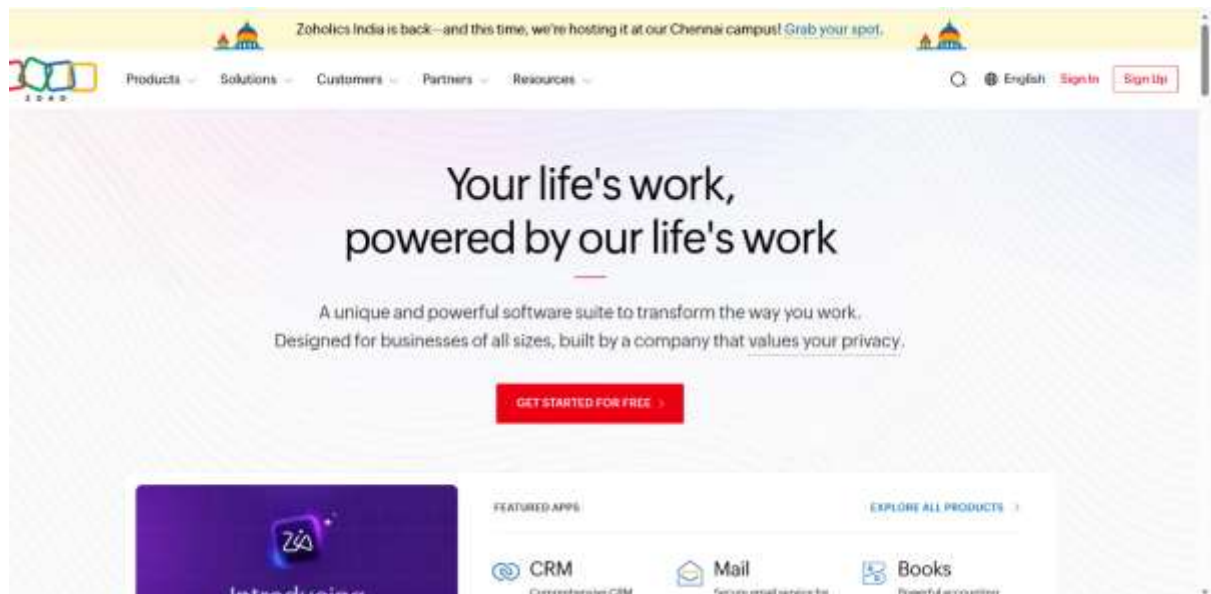

To create a cloud-based Student Information System using Zoho Creator.

Steps:

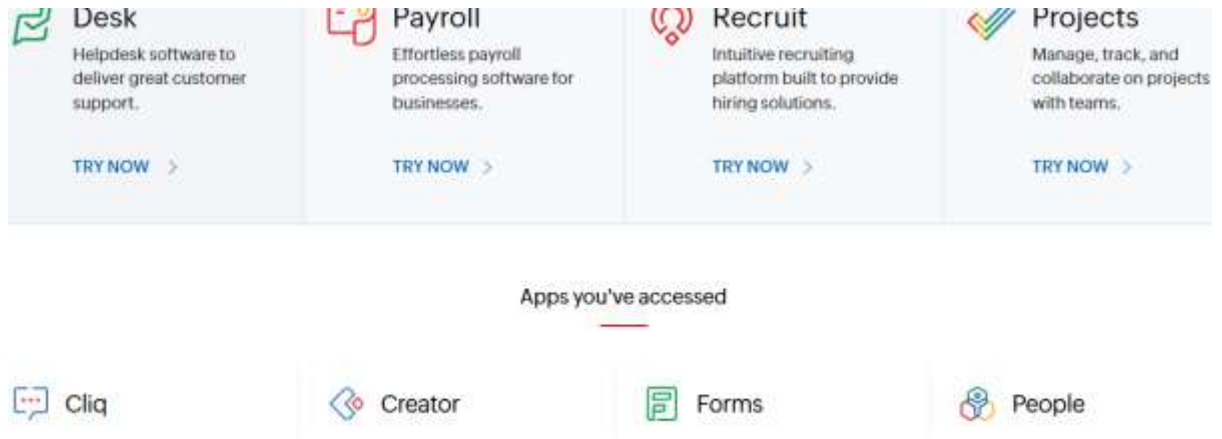

1. Create a new application.
2. Create a **Student Information** form.
3. Add fields: Student Name, Register Number, Address, Phone Number, Age, Course, Grade, Attendance Report, Progress Report, and Semester Mark Sheet.
4. Create reports to view student information.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

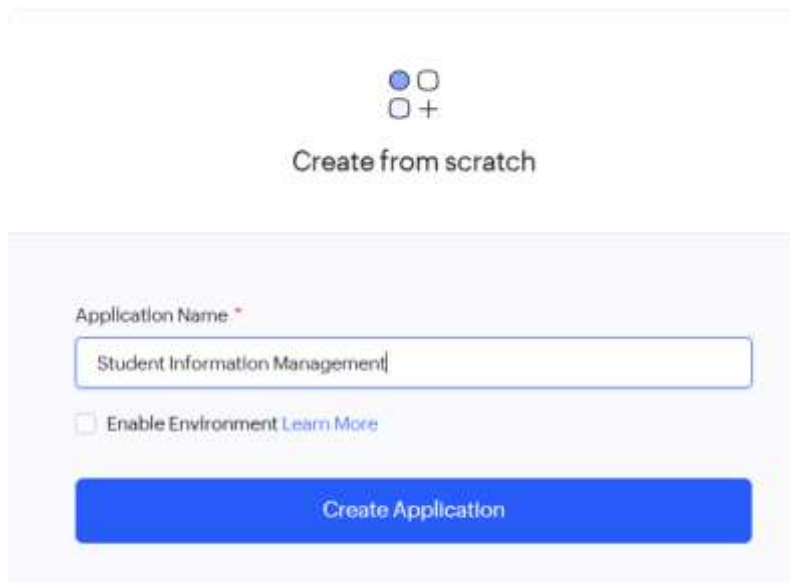

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 3: Click Create New Application and select Create from Scratch

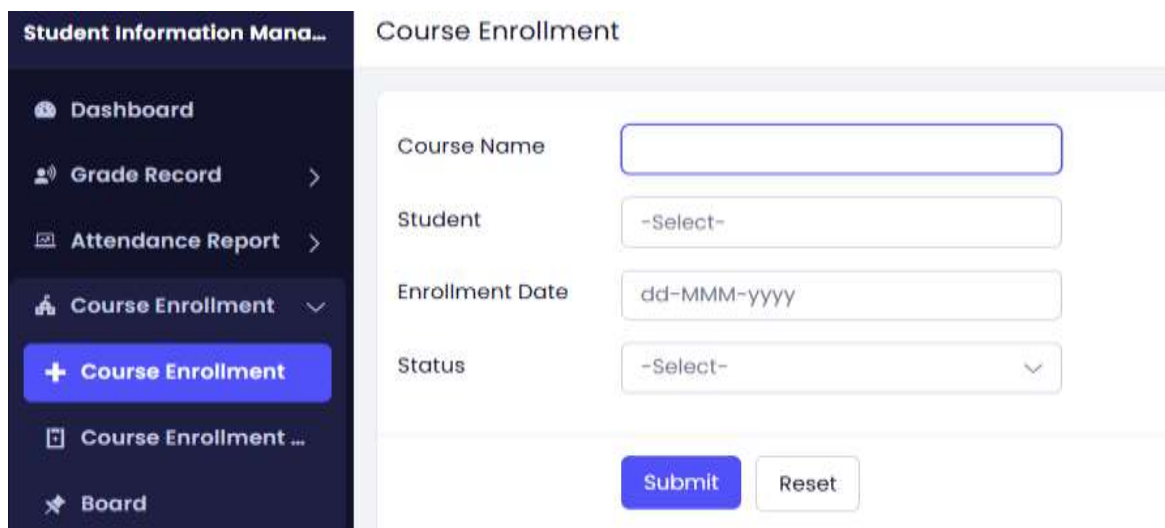

STEP 4: Enter Student Information System as the application name and click Create Application.

The screenshot shows a web interface for creating an application from scratch. At the top, there are icons for different creation methods (a blue circle, a square, and a plus sign) and the text "Create from scratch". Below this is a form with a label "Application Name:" followed by a text input field containing "Student Information Management". There is a checkbox labeled "Enable Environment" with a link "Learn More" next to it. At the bottom of the form is a large blue button labeled "Create Application".

Step 5: Add fields: Student Name, Register Number, Address, Phone Number, Age, Course, Grade, Attendance Report, Progress Report, and Semester Mark Sheet

The screenshot shows the "Course Enrollment" form within the "Student Information Management" application. On the left is a dark sidebar with a menu containing: "Dashboard", "Grade Record", "Attendance Report", "Course Enrollment" (with a dropdown arrow), "+ Course Enrollment" (highlighted in blue), "Course Enrollment ...", and "Board". The main content area is titled "Course Enrollment" and contains four input fields: "Course Name" (text input), "Student" (dropdown menu showing "-Select-"), "Enrollment Date" (text input with a date mask "dd-MMM-yyyy"), and "Status" (dropdown menu showing "-Select-"). At the bottom right are two buttons: "Submit" (blue) and "Reset" (white with a grey border).

STEP 6: Save the form Student Information Management, enter sample booking records, and view them in the System

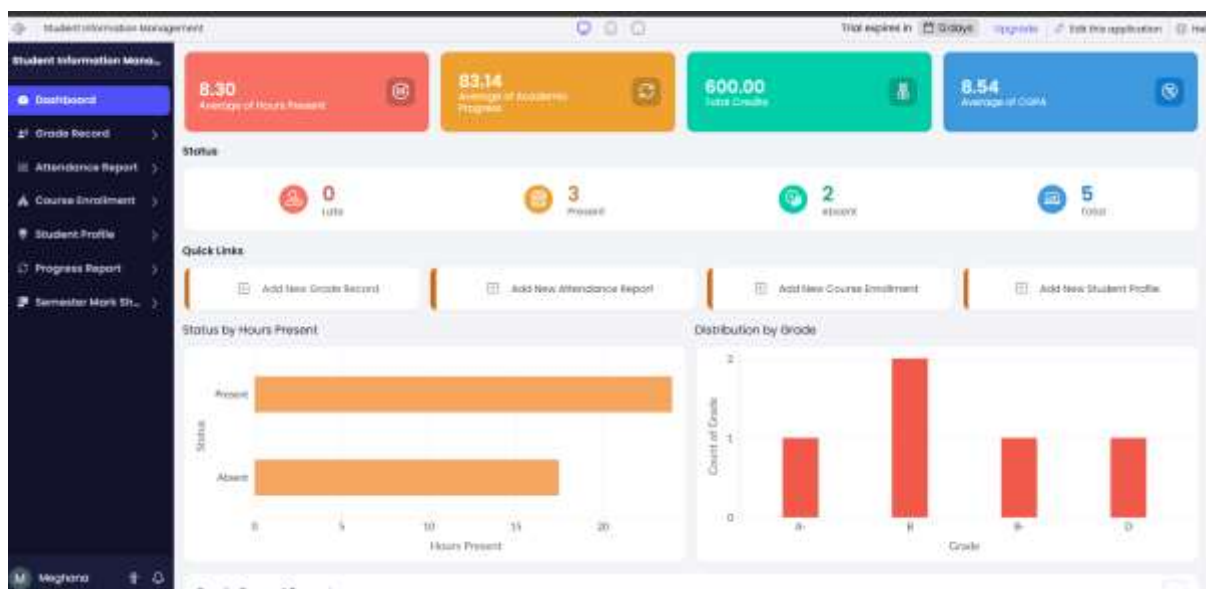

Student Information Management Attendance Report Report

Student	Date	Status	Hours Present	Remarks
2	30-Jul-2026	Absent	8.00	Submitted homework on time
3	30-Jul-2026	Present	8.00	Participated in extra class activity
2	30-Jul-2026	Present	7.50	Excused absence for medical reason
3	30-Jul-2026	Present		
4	30-Jul-2026	Present		
1	30-Jul-2026	Absent	8.00	Completed all assignments early
2	30-Jul-2026	Present	8.00	Late arrival due to traffic
3	30-Jul-2026	Present		
4	30-Jul-2026	Present		

Student Information Management Course Enrollment Report

Step 7: The Software has Been Created

EXP NO - 11: Online Supermarket System

Aim:

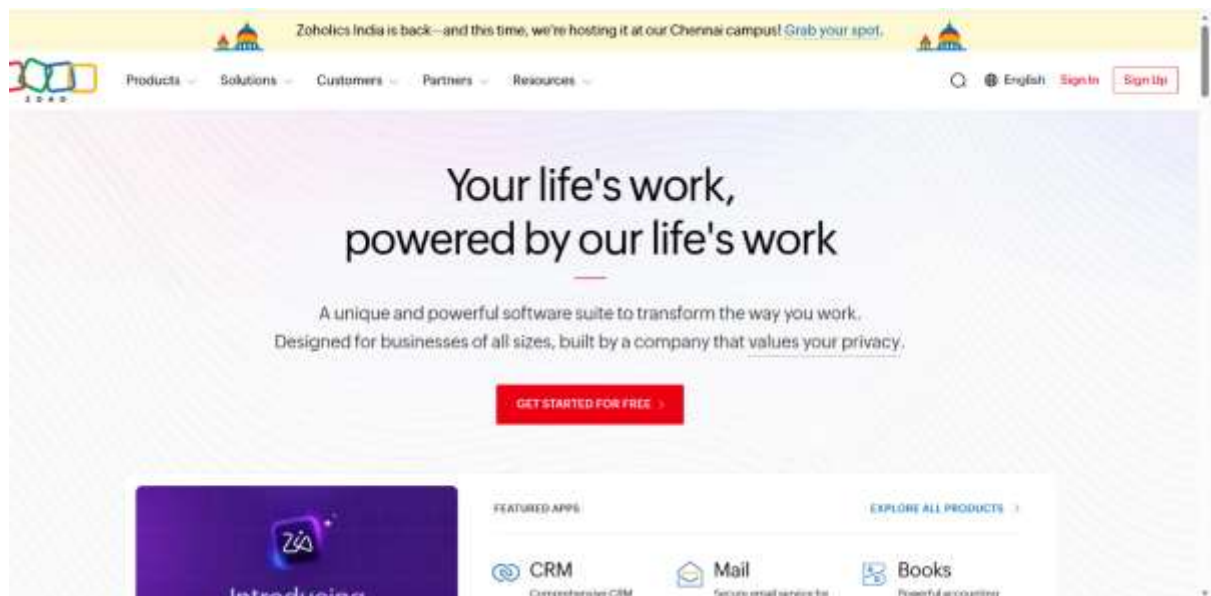

To create a cloud-based Online Supermarket System using Zoho Creator.

Steps:

1. Create a new application.
2. Create an **Online Supermarket** form.
3. Add fields: Customer Name, Address, Phone Number, Email, Item Name, Quantity, Price, Item Classification, and Total Amount.
4. Create reports to view customer orders.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

Apps you've accessed

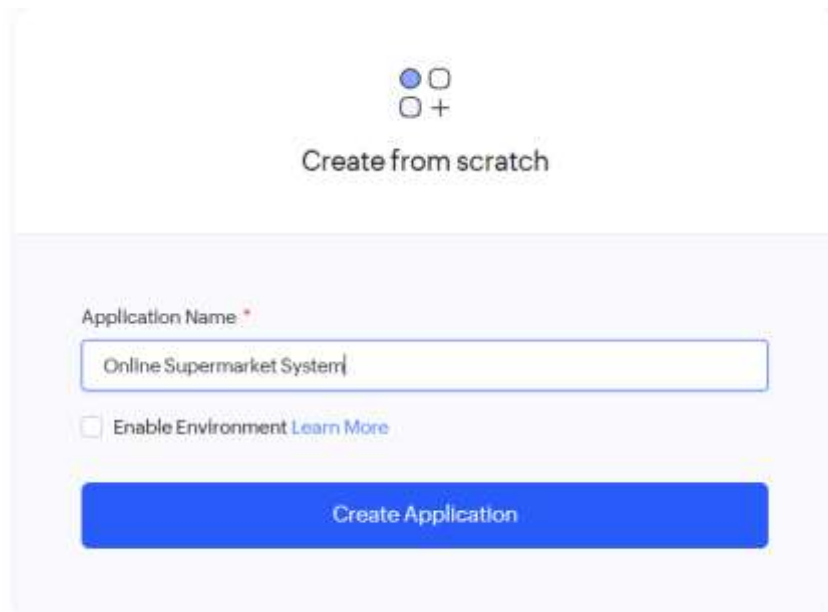

STEP 3: Click Create New Application and select Create from Scratch

Create New Application

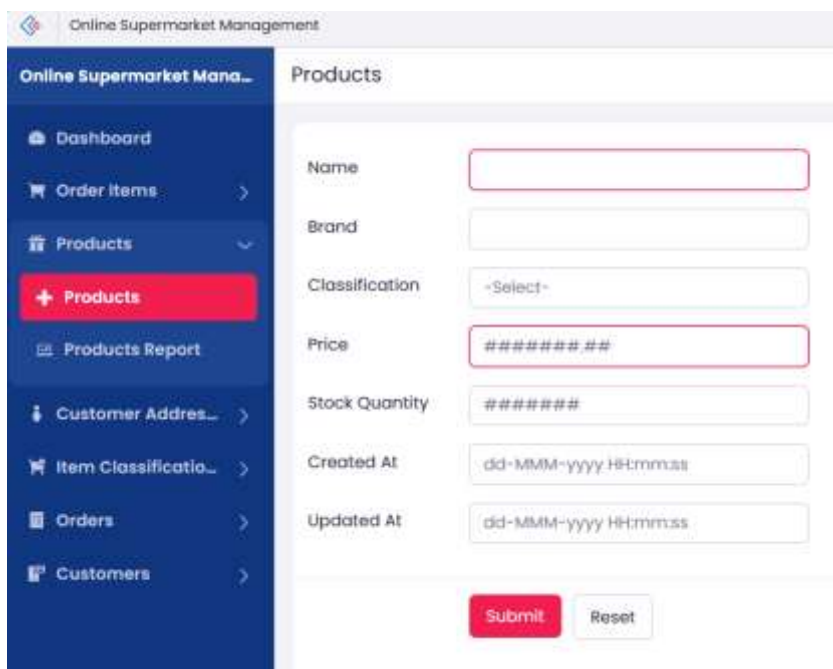

STEP 4: Enter Online Supermarket System as the application name and click Create Application.

The screenshot shows a 'Create from scratch' interface. At the top, there is a logo consisting of four squares (two blue, two white) and a plus sign. Below the logo, the text 'Create from scratch' is displayed. The main form area has a light purple background. It contains a label 'Application Name *' followed by a text input field containing 'Online Supermarket System'. Below the input field is a checkbox labeled 'Enable Environment' with a link 'Learn More' next to it. At the bottom of the form is a large blue button labeled 'Create Application'.

Step 5: Add fields: Customer Name, Address, Phone Number, Email, Item Name, Quantity, Price, Item Classification, and Total Amount.

The screenshot shows the 'Online Supermarket Management' application. On the left is a dark blue sidebar with a menu. The menu items are: 'Dashboard', 'Order Items', 'Products' (with a dropdown arrow), '+ Products' (highlighted in red), 'Products Report', 'Customer Address...', 'Item Classification...', 'Orders', and 'Customers'. The main content area is titled 'Products' and contains a form with the following fields: 'Name' (text input), 'Brand' (text input), 'Classification' (dropdown menu with '-Select-' selected), 'Price' (text input with '#####.##' as a placeholder), 'Stock Quantity' (text input with '#####' as a placeholder), 'Created At' (text input with 'dd-MMM-yyyy HH:mm:ss' as a placeholder), and 'Updated At' (text input with 'dd-MMM-yyyy HH:mm:ss' as a placeholder). At the bottom of the form are two buttons: 'Submit' (red) and 'Reset' (white).
